linkedin.com/in/ron-vincent-cada | ron-cada-portfolio.vercel.app

PROFILE

BS Information Technology student specializing in Web and Mobile Application Development, with hands-on experience building backend APIs, full-stack systems, and native Android applications. Strongest in C#/ASP.NET Core and Python/Django, with project experience in authentication, databases, Docker, testing, and CI. Seeking a software engineering or backend development internship.

EDUCATION

Manuel S. Enverga University Foundation | Lucena City, Quezon | Expected 2027

Bachelor of Science in Information Technology, Web and Mobile Application Development | GWA: 1.315 | University Scholar | Dean's Lister

AWARDS

Top Performer & Best in Capstone - Open iT Applied Full Stack and Data Science Bootcamp | 2026

1st Place, Open iT Codefest - 27-hour Inter-Institution Hackathon | 2025

Top Individual Performer, Hack4Gov CALABARZON CTF | 2025

2nd Place, DLSU-D SikapTala National CS and IT Skills Competition - Python Collegiate Category | 2025

1st Place, Stage 3 & Grand Finals Finalist - CodeChum National Programming Competition | 2024

Back-to-Back 1st Place, COCO Coding Competition - MSEUF Cyber Week | 2025-2026

SELECTED PROJECTS

UniPM (Team Capstone) | C#, ASP.NET Core, React, SQL Server, Docker | 2026-Present

- Develop C# and ASP.NET Core APIs for a university preventive-maintenance system covering assets, schedules, inspections, and multi-row maintenance forms, with authenticated role-based workflows.
- Implemented the Draft → Submitted → Acknowledged maintenance-form lifecycle so only acknowledged inspection rows become part of official maintenance history; maintain automated tests, database migrations, health checks, and CI.

Sidekick (Team Capstone) | C#, ASP.NET Core, React, PostgreSQL, Docker | 2026

- Built React workflows for a talent marketplace covering profiles, skills, gigs, applications, and contracts, and integrated the frontend with ASP.NET Core Identity authentication.
- Set up Docker Compose and environment configuration across the React client, ASP.NET Core API, and PostgreSQL database.
- Collaborated through Git branches, pull requests, code reviews, and mentor feedback.

Enverga Arena | Python, Django REST Framework, React, TypeScript | 2026

- Built a Django REST Framework and React intramurals platform for schedules, results, registrations, rosters, medal tallies, and news; secured online tryouts with email OTP, rate limiting, Turnstile, and duplicate-submission protection.

StudyLens | Kotlin, Jetpack Compose, Python, Django REST Framework, PostgreSQL | 2026

- Built a native Android study application using CameraX and ML Kit OCR, with JWT-secured Django REST Framework and PostgreSQL APIs for notes, flashcards, quizzes, progress tracking, and summaries.

ScrybeSync | Python, Django REST Framework, PostgreSQL, Celery, Redis, Docker | 2025

- Built an application that converts uploaded audio and video into transcripts, summaries, and linked notes; used Celery and Redis for long-running Whisper and summarization jobs while enforcing JWT-based ownership controls.

TECHNICAL SKILLS

Languages: C#, Python, TypeScript, JavaScript, SQL, Kotlin

Frameworks: ASP.NET Core, Django REST Framework, React, Entity Framework Core, Jetpack Compose

Data & Tools: PostgreSQL, SQL Server, Redis, Celery, Docker, Git, GitHub Actions, xUnit

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) - Microsoft | 2026

GitHub Foundations - GitHub | 2025

TRAINING

Open iT Applied Full Stack and Data Science Bootcamp - Full Stack Development Track | 2026

- Hands-on training in ASP.NET Core, React, PostgreSQL, Docker, REST APIs, Git workflows, and team-based software delivery.

CS50x: Introduction to Computer Science - Harvard CS50 | 2024 - C, algorithms and data structures, memory, Python, SQL, HTML/CSS/JavaScript, and Flask

CS50P: Introduction to Programming with Python - Harvard CS50 | 2024 - Python, OOP, exceptions, file I/O, unit testing, libraries, and regular expressions

Intermediate PostgreSQL - University of Michigan (Coursera) | 2025 - schema design, normalization, transactions, stored procedures, data import, and text/regex queries
